About the reviews

The government's policy statement [Reviewing Post-16 Education and Training Institutions](#) set out our approach to facilitating a restructuring of the further education sector. This will be done through a series of area based reviews of provision.

This statement sets out the scope of the area reviews that make up the first wave of the review process and the first 6 areas included in the second wave. The second wave includes details of the local authorities and Local Enterprise Partnerships (LEPs) covered by the review. We will publish details of further wave 2 areas in due course. The area reviews in wave 1 began in September to November 2015, those in wave 2 are due to begin early in 2016.

Area reviews covering the Greater London area are likely to take place over waves 2 and 3 but details have yet to be confirmed. Further information will be provided in due course.

Each review will start by assessing the economic and educational needs of the area, and the implications for post-16 education and training provision, including:

- school sixth forms
- sixth form colleges
- further education colleges
- independent providers

The reviews will then focus on the current structure of further education and sixth form colleges, although there will be opportunities for other institutions (including schools and independent providers) to opt in to this stage of the analysis. Regional School Commissioners will consider the implications of the first stage of the analysis for school sixth form provision.

The reviews will be led by steering groups made up of:

- chairs of governors
- LEPs and local authorities
- FE and sixth form college commissioners
- regional schools commissioners

This approach aims to move towards fewer, larger, more resilient and efficient providers, and more effective collaboration across institution types. It will be important to create greater specialisation by establishing institutions that are genuine centres of expertise. These will be able to support sustained progression in professional and technical disciplines, alongside excellence in other fundamental areas – such as English and maths.

This will:

- ensure that we have the right capacity to provide good education and training for our young people across England
- include the creation of a new network of prestigious Institutes of Technology, and National Colleges to deliver high standard provision at levels 3, 4 and 5

Further information on each review is provided below. Please send any questions to area.reviews@education.gsi.gov.uk.
